

Formula Offroad

Description:

Established for over 20 years Formula Offroad has been manufacturing steel and aluminum vehicle accessories for commercial and private vehicles.

We pride ourselves on having a niche in the industry by providing bars for vehicles from the early through to late models.

Many aftermarket vehicle accessory stores buy and sell our products as well as their own.

All our design, manufacturing and finishing are done in house. We plasma cut all of our fastening and structural components. Cutting bending and welding are all done using up to date machinery. We also have a spray booth for painting steel bars and a fully equipped polishing bay to finish our aluminum bars.
